Profile

To leverage my skills in Social Media Marketing, Microsoft Office, programming (C, Python, HTML), and foundational knowledge in Machine Learning and AI tools to contribute effectively to real-world projects. I aim to continuously learn, grow, and apply innovative solutions in a technology-driven environment.

Education

B.Sc in Computer Science & Engineering, World University of Bangladesh

Jan 2025 - Present

I am currently studying Computer Science and Engineering (CSE) at the World University of Bangladesh. I am in my 3rd semester, and my CGPA is **2.77**. I am working hard to improve my academic performance and strengthen my skills in programming, technology, and problem-solving as I continue my journey in the CSE field.

Higher Secondary Certificate, Namuri College

2021 – 2023

I completed my Higher Secondary Certificate (HSC) from the Science group with a GPA of **3.08**. My studies in science helped me build a strong foundation in subjects like mathematics, physics, and computer-related concepts, which later motivated me to pursue my higher studies in Computer Science and Engineering.

Secondary School Certificate, Namuri High School & College

2019 – 2020

I completed my Secondary School Certificate (SSC) from the Science group with a GPA of **3.67**. This stage helped me develop my basic academic foundation and built my interest in science and technology.
